The Tranquility

Just 20 minutes from Highway 515 and historic downtown Ellijay, Georgia, Tranquility at Carters Lake® is situated on 550 acres of thick hardwoods with mountain and lake views. Carters Lake is conveniently located just ¼ mile from this home off Doll Mountain Road. This 3,220 acre lake is North Georgia's hidden secret surrounded by a 5,000 acre nature preserve managed by the U.S. Army Corps of Engineers. This is a lake that does not draw down each winter which offers boaters a lake experience unlike other North Georgia lakes that draw down from full-pool during the fall and winter months. Carters Lake is an exceptional lake that offers deep water and low boat traffic.
